FINAL ACTION

Applicant's amendment of 6-12-07 has been considered. Claims 35-41 and 43 are pending.

The original restriction has been revised according to a petition decision on 10-16-06. However, the original elected group 16 is the same as the last group outlined in the petition. The amended claims are drawn to the elected original group 16. Although the amended claims have overcome the previous rejections of 112/1st and 2nd paragraph, they constitute new matter, and thus, raise new ground of rejection.

Claim Rejections - 35 USC § 112, First Paragraph

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

New Matter: Claims 35-41 and 43 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 35 and 39 recite Z as “alkenyl” which is a $-C=C-$ moiety, which does not have support in the specification or original claim 1, which has Z as “alkylenyl” or a CH_2 moiety.

Claim 38 recites the limitation of “**argatroban and prodrugs thereof**”. The specification does not provide a description as to what is considered as a prodrug of argatroban or other recited agents.

Thus, the specification fails to provide written description for compounds and prodrugs mentioned above.

Interview: On 9-28-07, Examiner Truong called Ms. Sarah Klosek to resolve the above new matter. However, Ms. Klosek could not make the decision at this time.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
